Baba Lock And Hardware

DOUBLE ACTION HINGE FINISH :- BROWN

Description of Product

A Double Action Hinge allows a door to swing open in both directions, providing convenience and ease of access. It's ideal for high-traffic areas, offering durability and smooth movement. The hinge is designed for minimal wear, ensuring long lasting performance. Perfect for commercial or residential spaces requiring flexibility in door operation.

Specification:-

Body :- full iron
Weight capacity :- 70kg to 80kg

Features:-

Allows doors to swing open in both directions, providing easy access from either side. Durable design ensures smooth, long-lasting performance for high-traffic areas.

Baba Lock And Hardware

SINGLE ACTION HINGE FINISH :- BROWN

Description of Product

A Single Action Hinge Lock is designed for smooth, efficient door operation with a single motion to secure or release. It ensures easy access while maintaining safety and security. Ideal for both residential and commercial spaces, it offers durability and reliability. The lock mechanism is simple yet effective, providing peace of mind and convenience.

Specification:-

Weight capacity :- 60kg to 70 kg
Finish :- brown

Features:-

Provides smooth, efficient door operation with minimal effort. Ensures durability and security with a robust, corrosion-resistant design.

Baba Lock And Hardware

HELICAL DOOR SPRING FINISH :- BROWN

Description of Product

The Helical Door Spring is a robust and durable spring mechanism designed for smooth door operation. Made from high-quality steel, it offers consistent performance and long-lasting reliability. This spring helps doors close softly and securely, preventing slamming and wear. Ideal for residential and commercial applications, it ensures enhanced safety and convenience.

Specification:-

Weight capacity :- 60kg to 70 kg
Finish :- brown

Features:-

Provides smooth and reliable door closure with minimal wear. Durable, rust-resistant design for long-lasting performance and safety.

Baba Lock And Hardware

SLEEK DOOR CLOSER FINISH :- SS

Description of Product

The Capsule Door Closer is a high-quality, durable door closing mechanism designed for smooth and quiet operation. It offers adjustable closing speed and latching action, ensuring the door closes securely every time. The compact, sleek design fits a variety of door types, making it ideal for both commercial and residential use. With its easy installation and reliable performance, it enhances safety and convenience.

Specification:-

Finish :- SS
Body :- MS

Features:-

Smooth and silent operation for effortless door closing. Adjustable closing speed and latch action for optimal control and security.

Baba Lock And Hardware

NOVA DOOR CLOSER FINISH :- BROWN

Description of Product

The Pluto Door Closer is designed for smooth and efficient door operation, offering reliable closure control. With adjustable settings, it ensures doors close softly and securely. Made from high-quality materials, it provides durability and long-lasting performance. Ideal for both residential and commercial applications, it offers convenience and safety in every use.

Specification:-

Weight capacity :- 60kg to 70 kg
Finish :- brown

Features:-

High durability with smooth, consistent closing performance for all types of doors. Adjustable closing speed and latching action for customized functionality.

Baba Lock And Hardware

PLUTO DOOR CLOSER FINISH :- BROWN

Description of Product

The Pluto Door Closer is a durable and efficient solution for automatic door closing. Engineered for smooth operation, it ensures quiet and secure closure. With adjustable speed control, it offers versatility for various door sizes and applications. Its high-quality construction guarantees long-lasting performance and reliability.

Specification:-

Weight capacity :- 60kg to 70 kg
Finish :- Brown

Features:-

Smooth and silent closing with adjustable speed control. Durable construction for long lasting performance in high-traffic areas.

Baba Lock And Hardware

PLUTO DOOR CLOSER FINISH :- BROWN

Description of Product

This door closer is constructed from sturdy steel, ensuring durability and reliability in maintaining controlled door movements. The steel material provides robustness against wear and tear, making it suitable for high-traffic areas and ensuring long term performance. Its strong build enhances security by effectively managing door closure, preventing unauthorised access and enhancing safety measures in various environments.

Specification:-

Weight capacity :- 60kg to 70 kg
Finish :- SS

Features:-

Smooth and silent closing with adjustable speed control. Durable construction for long lasting performance in high-traffic areas.

Baba Lock And Hardware

CAPSULE DOOR CLOSER FINISH :- Brown

Description of Product

A capsule door closer is a compact, hydraulic-based device designed to automatically close doors smoothly and securely. It features an adjustable closing speed for controlled movement. The built-in damping mechanism prevents slamming, ensuring safety. Made from durable metal alloys, it offers long-lasting performance. Commonly used in commercial and residential settings, it enhances convenience and security.

Specification:-

Finish :- SS
Body :- MS
Warranty :- 2 year replacement

Features:-

Smooth and silent operation for effortless door closing. Adjustable closing speed and latch action for optimal control and security.

Baba Lock And Hardware

CAPSULE DOOR CLOSER FINISH :- SS

Description of Product

The Capsule Door Closer SS is a high-quality stainless steel door-closing mechanism designed for durability and smooth operation. It features an adjustable closing speed, ensuring controlled door movement. The sleek SS finish enhances corrosion resistance and aesthetics. Suitable for residential, commercial, and industrial applications. Easy to install and maintain for long lasting performance.

Specification:-

Finish :- SS
Body :- MS

Features:-

Smooth and silent operation for effortless door closing. Adjustable closing speed and latch action for optimal control and security.

Baba Lock And Hardware

HELIX DOOR CLOSER FINISH :- SS/Brown

Description of Product

The Helix Door Closer is a durable and efficient automatic door-closing mechanism designed for smooth and controlled door movement. It features an adjustable closing speed, ensuring safety and convenience. The sturdy construction provides long-lasting performance in both residential and commercial settings. Its compact design allows for easy installation on various door types. Suitable for high-traffic areas, it enhances security and accessibility.

Specification:-

Weight capacity :- 40kg to 50kg
Finish :- Brown
SS

Features:-

Smooth and silent operation for effortless door closing. Adjustable closing speed and latch action for optimal control and security.
